ELSEVIER

Journal of Hydrology

Contents of Volume 199

Vol. 199 Nos. 1–2 **1 December 1997**

Editorial 1

Research Papers

Influence of components of the advection–aridity approach on evapotranspiration estimation
R.J. Qualls and H. Gultekin 3

Statistical development and validation of discharge equations for natural channels
S.L. Dingman and K.P. Sharma 13

Downward water flow through sloping layers in the vadose zone: time-dependence and effect of slope length
L. Pan, A.W. Warrick and P.J. Wierenga 36

An assessment of first-order stochastic dispersion theories in porous media
D.A. Chin 53

Annual precipitation and river discharges in Florida in response to El Niño- and La Niña-sea surface temperature anomalies
H. Sun and D.J. Furbish 74

Linking the hydrologic and biogeochemical controls of nitrogen transport in near-stream zones of temperature-forested catchments: a review
C.P. Cirmo and J.J. McDonnell 88

Catchment-wide impacts on water quality: the use of 'snapshot' sampling during stable flow
R.B. Grayson, C.J. Gippel, B.L. Finlayson and B.T. Hart 121

Advection and dispersion of contaminant in a permeable medium embedding fractures in which advection velocity is comparatively slow
H. Rubin, D. Dveyrin, J. Birkhölzer and G. Rouvé 135

A finite-element linked model for analysis of solute transport in 3-D space of multilayer subsurface systems
M.G. Rabbani and J.W. Warner 163

Effect of orography on precipitation in the western Himalayan region
P. Singh and N. Kumar 183

Discussion

Special Issue on Decision-Support Systems (DSS) (Journal of Hydrology Vol. 177, Nos. 3–4) Comment
A. Balloffet and L. Quinn 207

Special Issue on Decision-Support Systems (DSS) (Journal of Hydrology Vol. 177, Nos. 3–4) Reply
D.G. Jamieson 211

Modeling variably saturated flow and transport into sandy soil (Journal of Hydrology 186 (1996), 315–325)
D.L. Baker 213

Modeling variably saturated flow and transport into sandy soil (Journal of Hydrology 186 (1996) 315–325) Reply
C.W. Li 215

Book reviews

Water Policy: Allocation and Management in Practice, P. Howsam and R.C. Carter 217

Kinematic Wave Modeling in Water Resources. Surface Water Hydrology, V.P. Singh 218

Vol. 199 Nos. 3–4 **10 December 1997**

Research Papers

Relations between the structure of storage and the transport of chemical compounds in karstic aquifers
L. Vaute, C. Drogue, L. Garrelly and M. Ghelfenstein. 221

Determining the source of nitrate pollution in the Niger discontinuous aquifers using the natural $^{15}N/^{14}N$ ratios
P. Girard and C. Hillaire-Marcel. 239

Modelling evaporation from a drained and rewetted peatland
J.F.M. Spieksma, E.J. Moors, A.J. Dolman and J.M. Schouwenaars 252

Application of a neutral network technique to rainfall–runoff modelling
A.Y. Shamseldin. 272

Comparison of three hydraulic property measurement methods
D. Mallants, D. Jacques, P.-H. Tseng, M.T. van Genuchten and J. Feyen 295

Chemical mixing model of streamflow generation at La Selva Biological Station, Costa Rica
D. Genereux and C. Pringle 319

Rainfall interception by a *Pinus sylvestris* forest patch overgrown in a Mediterranean mountainous abandoned area I. Monitoring design and results down to the event scale
P. Llorens, R. Poch, J. Latron and F. Gallart 331

Rainfall interception by a *Pinus sylvestris* forest patch overgrown in a Mediterranean mountainous abandoned area II. Assessment of the applicability of Gash's analytical model
P. Llorens. 346

Streamflow responses to afforestation with *Eucalyptus grandis* and *Pinus patula* and to felling in the Mokobulaan experimental catchments, South Africa
D.F. Scott and W. Lesch. 360

Conditional expectation for evaluation of risk groundwater flow and solute transport: one-dimensional analysis
T.-S. Liou and H-D. Yeh 378
